

XAVIO DESIGN

MAYFAIR

We design like artists, study like analysts and think like engineers

Capability Statement

Xavio Design has a reputation for creating lighting designs that are timeless classics, merging elements of brilliant creativity with a sensitive sympathy with the architecture, interior design, and 'story' within every project.

Our core focus is in lighting designs for luxury homes and gardens around the world, with the ability to work with any style of interior, ranging from opulent classical residences to cutting edge contemporary architectural masterpieces.

An award-winning combination: natural design talent, cutting-edge technology, and the latest global products all merged in with many years of experience and expertise.

What puts Xavio Design above the competition

- Our people - Constant internal training and high levels of interaction with world-class partners
- Our values - 'Treat everyone like royalty' with helpfulness, respect and humility
- Superior product sourcing
- Highly systemised approach
- Global reach - extensive international capabilities
- Extremely professional protocols
- Exceptionally fast and accurate production of complex documentation packages for large projects
